

ASEAN Federation of
Plastic Industries (AFPI)
Presents

2nd ASEAN Plastics Awards 2016

Creating new future for
the plastics industries in ASEAN

2nd ASEAN Plastics Awards 2016

Background

ASEAN Federation of Plastic Industries (AFPI) was founded in December 1981 with the purpose of providing an arena to promote intra-regional trade and investment in the field of plastics industry. The forming of AFPI is to encourage more collaboration amongst the various ASEAN member countries in order to increase the level of advancement in Technology and hence sustainability of the Plastics Industry. AFPI realized that there will be a huge impact from FTA in various frameworks that will have great influence in the competitiveness of Plastic market, especially for commodity products. The manufacturers may have to reduce their costs for compatible price and in turn the quality of the products may be compromised. The realization of ASEAN Economic Community (AEC) in 2015 has inevitably been the target market for both importers and exporters as the population of the community will be more than 600 million which is a sizable market.

During the 15th Term AFPI Council meeting (2012-2014) held on April 3rd, 2013 in Thailand, an ASEAN product contest was initiated as part of the plans and programs to promote the development and growth of the Plastics Industry in the ASEAN region. This resulted in the creation of a project called "ASEAN PLASTICS AWARDS" which aims to encourage innovation without compromising on the quality and standards, hence creating higher value to ASEAN's plastic products. The second "ASEAN Plastics Awards" competition will be hosted by Thailand with the collaboration from plastics industry organizations within member countries of AFPI which comprise of THE INDONESIAN OLEFIN, AROMATIC AND PLASTIC INDUSTRY ASSOCIATION (INAPLAS), MALAYSIAN PLASTICS MANUFACTURERS ASSOCIATION (MPMA), MYANMAR PLASTIC INDUSTRIES ASSOCIATION (MPIA), PHILIPPINE PLASTICS INDUSTRY ASSN., INC. (PPIA), SINGAPORE PLASTIC INDUSTRY ASSOCIATION (SPIA), VIETNAM PLASTICS ASSOCIATION (VPA), and PLASTIC INDUSTRY CLUB, THE FEDARATION OF THAI INDUSTRIES(PIC-FTI). The winners of the competition will be announced and awarded at the "Plastic Night 2016" Gala Dinner to be held on Friday 16th September, 2016 at the Thai Army Club, Vibhavadi-Rangsit road, Bangkok, Thailand.

Objectives

1. To raise the standard of the plastic manufacturing in ASEAN.
2. To improve the quality and aesthetic of plastic products and encourage the value added creation of plastic products.
3. To promote the innovation in plastic products.

Judging Criteria

- The judges will be appointed by the AFPI committee and the decisions of the judges are final.
- The judges reserve the right to move an entry from one category to another if they deem it more appropriate.
- The judges reserve the right to select more than one winner in some categories or not to make an award in any category should the quantity of work not meets the standards set by the judging criteria.
- All eligible entries are judged based on the merits of their quality of the production, manufacturing process, function, and design.
- Entries will be judged according to the 4 criteria as follows:
 - 1) Innovation & Function
 - 2) Aesthetics
 - 3) Environmental Concern
 - 4) Overall Impression

Main Product Categories

1

Houseware Products:

trays, bowls, plates, utensils, trash cans, tables, chairs, furniture and other plastic containers.

Food Rigid Packaging:

soft drink bottles, water bottles, juice bottles, ready-to-eat food containers, instant noodle cups, etc.

2

3

Non-food Rigid Packaging:

oil containers, chemical bottles, detergent bottles, secondary packaging, etc.

Flexible Packaging:

stand up pouches, Form fill-seal sachets for coffee, non-dairy creamer and ketchup, retorted pouches, etc.

4

5

Personal Care, Medical and Healthcare Products/Packaging/Devices:

shampoo bottles, blister packs, pill containers, pharmaceutical bottles, cosmetic jars, cream tubes, syringes, saline bottles, sample collection tubes, toothbrushes, baby bottles, beverage bottles, liquid soap bottles, etc.

Construction Products:

pipe, fittings, construction equipments, electrical conduits, construction parts, etc.

6

7

Disposable Products:

cutlery, chopsticks, straws, cups, tray boxes, plates, shopping bags, garbage bags, etc.

Electrical, Automotive and Other Durable Products/Parts.

8

SPECIAL AWARDS
